King Island Scheelite Limited (ASX:KIS) is very pleased to advise that the Honourable Paul Harriss, Minister for Resources, Tasmania, today granted a mining lease to Australian Tungsten Pty Ltd, a wholly owned subsidiary of KIS, over the previously mined Dolphin Mine on King Island, Tasmania.

This event will now allow the commencement of dewatering the void left after operations ceased there in 1992. The dewatering process is expected to take approximately four months. KIS is currently finalising contract negotiations in order that work can commence in early July.

Commenting, Johann Jacobs said "This is an exciting development for KIS and wishes to thank The Honourable Paul Harriss, Minister responsible, and the staff at Mineral Resources Tasmania, for the expeditious manner in which they processed the application".
